

Pool Tables.

California House began manufacturing pool tables in 2010 after finding the marketplace full of uninspiring designs that did not match our furniture collections. We asked “why not us?” and sat down to create a line of unique, original pool tables that complimented our game room furniture. In a few short years, pool tables have become one of our largest product sales categories.

NOTE: All pool tables should be installed by a certified pool table installer. Please give Katie a call at 1-800-251-3597 for a list of certified installers near you.

Styles of Pool Tables Available (as of June 2018):

Sizes:: The Atherton, Austin, City, Loft, Newport, and Petaluma are available in 7', 8', Pro 8', and 9'. The Bainbridge and District are available in 7', 8', and Pro 8' only.

Pockets: The Atherton, Austin, City, Loft, Newport, and Petaluma are available with either Internal Pocket or External Pocket rails. Internal pockets are enclosed within the outer frame, whereas external pockets, which are more traditional, are visible from the outside. About 95% of our tables ship with internal pockets. The Bainbridge and District are available Internal Pocket rails only.

Slate: 1" thick, diamond honed, three-piece matched and backed slate.

Cushions: K66 profile, 72% natural gum rubber with a 48-52 durometer. Guaranteed plus or minus 4/1,000ths of an inch variance in the overall dimensional stability of each billiard cushion from one end to the other. We use the most accurate cushions available.

Sights: All tables come standard with diamond shape pearlized mother-of-pearl sights.

Construction:

California House pool tables are designed and engineered differently. Primarily, we wanted to visually eliminate the heavy appearance in the middle of "traditional" pool tables and get rid of the short, stubby legs. Next, we wanted to build a much stronger table by eliminating many of the brackets and connectors required to assemble our competitor's products. And finally, we wanted to make the table simpler, believing that better design takes away all that is unnecessary.

As you can see on the previous page, our internal chassis construction provides a direct solid-hardwood link between the slate and the ground. Because the one-piece chassis is fully assembled and precision leveled at the factory using massive 8/4 hardwood with mortise and tenon joinery, all bolts are eliminated except the few thru-bolts fastening the legs to the chassis itself. Assembly is much easier, faster, more accurate, and stronger.

Pool Table Room Sizing Chart: Make sure you choose the right size table for your room! Below shows the room sizes required for playing with various length cues. Our standard play-package uses 57" cues.

Table Size	Playing Area	48" Cue	52" Cue	57" Cue	60" Cue
7'	38" x 76"	15'4" x 12'2"	16' x 12'10"	16'10" x 13'8"	17'4" x 14'2"
8'	44" x 88"	16'4" x 12'8"	17' x 13'4"	17'10" x 14'2"	18'4" x 14'8"
Pro 8'	46" x 92"	16'8" x 12'10"	17'8" x 13'6"	18'2" x 14'4"	18'8" x 14'10"
9'	50" x 100"	17'4" x 13'2"	18'4" x 13'10"	18'10" x 14'8"	19'4" x 15'2"
				Playpack Cue Length	

Pricelist Example:

POOL TABLES					(Options & Pricing on Pages 8 or 28)
